Injector Kit Assemblies

Injector Kit Assemblies include a complete set of both bypass and suction line parts for connecting Mazzei Injectors into a water or fluid system. Kit assemblies are available for all models and sizes of Mazzei Injectors.

Bypass Hose Assembly		Key	Description
		1	Male Hose Connector
		2	S.S. Hose Clamp
		3	Heavy Duty Hose
		4	Female Hose Connector
Suction Line Assembly		Key	Description
		5	Tubing Clamp
		6	Tube Connector
		7	Metering Valve
		8	Tubing (Length Approx. 10 ft.)
		9	Strainer Assembly

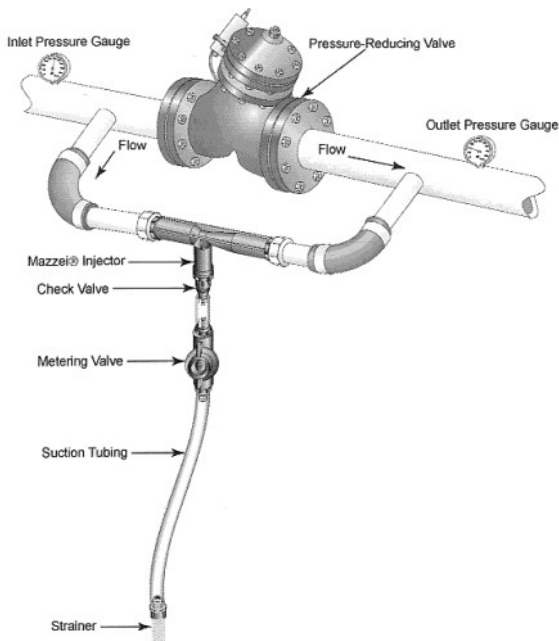

Note:

Suction line assembly may be purchased independent of bypass hose assembly.

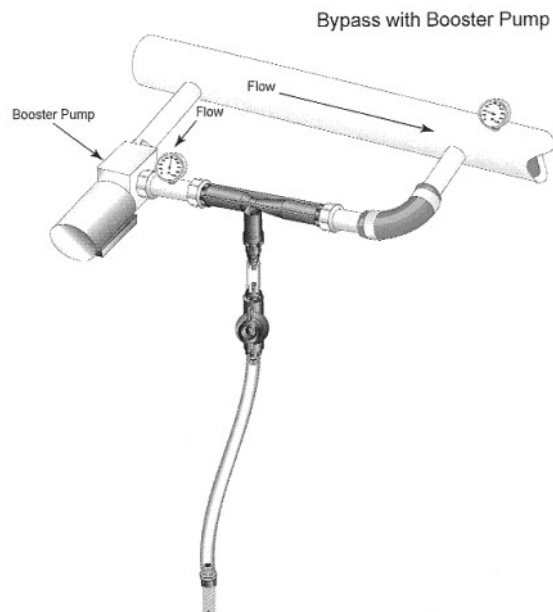

TYPICAL MAZZEI INSTALLATIONS

The injector can be installed around a point of restriction, such as a regulator valve or a gate valve to achieve a pressure differential.

When mainline pressure cannot be reduced, a small booster pump can be used to create a sufficient differential to operate the injector.
