TUF-SKIN

OM actuated valves &

FarmHQ

Automate your system with Tuf-Skin Valves and FarmHQ!

Get all your irrigation equipment online and in sync to save time, cut stress, and lower your costs.

Access real-time monitoring and control from your phone for any of your existing irrigation equipment.

Keep tabs on your irrigation from anywhere with constant updates on location, speed, pressure, and flow rate, as well as advanced metrics like estimated completion time and application rate.

Best of all, you can control your irrigation equipment remotely at the press of a button.
