HENDRICKSON BROS. PRC 4000 PRESSURE REGULATOR & CHECK VALVE

IP PRC 4030	4.42	30 PSI Regulator & Check Valve
IP PRC 4040	4.42	40 PSI Regulator & Check Valve

1/2" MPT Inlet x 1/2" FPT Outlet

The Hendrickson regulator works well in conjunction with 1/2" MPT impacts on Irripod IP-TST-1.75-LOW saddles.

The PRC preset pressure regulator is designed for flows from 0.5 to 6.5 GPM and includes a built in check valve to eliminate line drainage. Upon system shut down, the flow of water will stop when the inlet pressure drops below the preset pressure.
